## OBJECTIVE

I am eager to broaden my experience in sports broadcasting and writing, to further develop my abilities and establish myself as a proficient sports broadcaster. It is my aim to seek out and pursue opportunities in this field, with the goal of contributing positively to the industry.

## EXPERIENCE

**V89 Sports**                      Sports Correspondent                      08/2023-Present  
As a member of the media, I interview players from WVFS, run their Twitter account, and write recaps. WVFS has offered to provide me with a media credential for the Wake Forest game if I am invited to attend. As part of my responsibilities at V89 Sports, I am required to write three stories every week for WVFS radio, and I am given the opportunity to obtain media credentials to represent the station.

**TCC**                                      Broadcaster                                      02/09/2024-Present  
At Tallahassee Community College, I was fortunate enough to be the color commentator alongside the Screaming' Eagle William Haynes. I was only able to call two games for the ballclub, but with those two games, I was able to pick up on a lot of concepts in the broadcasting field, like scoring games, baseball terms, and the art of storytelling. I would be honored to replace the great William Haynes as the baseball (or basketball) play-by-play broadcaster if I got the chance.

**FSU College of Music**                      Usher                                      02/2024-Present  
As an usher, I clean the esteemed Ruby Diamond Concert Hall at Florida State, along with guiding people to their seats before performances. Sometimes, that includes responding during emergencies correctly, like escorting people out of the theatre when the fire alarm has been pulled.

**FSU College of Music.** Technician. 02/2024-Present

As a technician, I work as either an audio recording engineer or a stagehand for every music hall except for Ruby Diamond Concert Hall. As a stagehand, I help set anything the performer needs for his/her concert, and as an audio recorder, I record audio tracks of the whole performance, using a program called Samplitude. Audio recorders also set up the hanging or standing microphones, check the audio levels, and even record a performance on video too.

**Merchant's Walk Cinemas** Floor Staff. 03/2022-01/2024

As an member of the floor staff, my duties included operating the POS system, handling cash, and selling tickets. I also took care of all the concession-related equipment and ensured its cleanliness. I performed general maintenance of the lobbies, theater, and concession area, and took care of all the bar equipment in the theater. As a server, I served alcohol to customers and provided excellent customer service by answering phones, collecting tickets, and helping guests find their assigned seats. I made sure that the restrooms, lobby, hallways, and auditoriums were clean and well maintained. I also helped in opening and closing duties as assigned by the management and trained new staff members.

**T.J. Maxx/Homegoods** Sales Associate 07/2020-09/2020

I was responsible for operating the cash register at T.J. Maxx, which involved handling cash and scanning items during transactions. Additionally, I handled merchandise by finding prices for items without price tags, returning items to their original locations, and rearranging rugs. I trained new people on the staff and learned customer service.
